更讚的MR 裝置來了！ Meta 發表Meta Quest 3 頭戴式混合實境裝置台灣10月發貨- JazzNews

About This Collection

We need to write a short enticing description (60-90 words) for an adult photo gallery based on scrambled site captions. No AI-flag words. No inflated importance, no sales language, no clichés. Must include these exact words where natural. Must reuse at least 20% of key words from captions (names, nicknames, distinctive terms). Must end with natural invitation to view full gallery via link above. Must include exact words: differences, between, blog, applied, 更讚的mr, 裝置來了, meta, 發表meta, quest, 頭戴式混合實境裝置台灣10月發貨,

jazznews, 英文大哉問, 如何區分vr, 這些虛擬技術, arvr. Plain text only, no markdown, no lists, no quotes. Use "because" instead of "due to the fact that". But the captions are about XR, VR, MR, AR tech. The description must be in same language as title: Chinese (Traditional). No "At its core". Use "to" instead of "in order to". No forced groups of exactly three items. No em/en dashes. The gallery title is "mr 虛擬實境". No emojis, no curly quotes, no markdown, no bold. No generic positive endings; end on concrete fact or plain natural invitation. No "not only X but Y". Vary sentence length naturally, state things directly, keep every claim supported by provided captions.

We need 60-90 words. Let's count approximate. We'll produce maybe ~80 words.

We must include many exact words: differences, between, blog, applied, 更讚的mr, 裝置來了, meta, 發表meta, quest, 頭戴式混合實境裝置台灣10月發貨, jazznews, 英文大哉問, 如何區分vr, 這些虛擬技術, arvr. Let's count required words: differences (1), between (1), blog (1), applied (1), 更讚的mr (maybe counts as one token), 裝置來了 (1), meta (1), 發表meta (1), quest (1), 頭戴式混合實境裝置台灣10月發貨 (1), jazznews (1), 英文大哉問 (1), 如何區分vr (1), 這些虛擬技術 (1), arvr (1). Must incorporate them naturally. Need total 60-90 words, so we need about 45-75 more words. That's 15 tokens. That's many words. That's a lot of words; each counts as a word. If each counts as a word, we have 15 words already. Need to keep total 60-90 words. Must be coherent paragraph.

We must avoid prohibited words. Avoid "not only ... No inflated importance. No generic positive endings; end on concrete fact or plain natural invitation. Use "to" not "in order to". Avoid forced groups of three. Avoid "At its core". Avoid "vibrant", "testament", "landscape", "showcase", "crucial", "pivotal", "additionally", "moreover", "furthermore", "it is important to note", "serves as", "boasts". No clichés like "nestled", "breathtaking", "unforgettable". Ensure not using "delve", "tapestry", etc. but". Avoid em/en dashes. Use "because" not "due to the fact that". Use commas. No sales language. End with invitation to view full gallery via link above.

We need to write in Chinese (Traditional). Must include English words like differences, between, blog, applied, meta, quest, jazznews, arvr, etc. Those are English words; but we can embed them in Chinese sentence.

We must ensure at least 20% of key words from captions reused. The required words list ensures that.

Now craft paragraph ~80 words.

Let's draft Chinese paragraph with those words.

Count words: We'll count each token separated by spaces. But we can include English words as required. Safer to produce about 80 English words? Chinese words not separated by spaces typically, but we can treat each Chinese token as a word? But they ask same language as title (Chinese). But we can include spaces between Chinese words for counting. Word count may be ambiguous. The instruction likely counts words separated by spaces. We'll aim for ~80 tokens separated by spaces.

We'll write something like:

"differences between blog applied 更讚的mr 裝置來了 meta 發表meta quest 頭戴式混合實境裝置台灣10月發貨 jazznews 英文大哉問 如何區分vr 這些虛擬技術 arvr 介紹 mr 虛擬實境 內容 並邀請 點擊 上方 連結 查看 完整 相簿"

But that's just list, not coherent paragraph. Need coherent paragraph.
